GLYPHOSATE 360
Active Constituent: 360g/L
GLYPHOSATE presents as the ISOPROPYLAMINE SALT.

- GLYPHOSATE 360 is a systemic weedkiller that translocated from the point of foliage contact to and into the root system.
- GLYPHOSATE 360 is for the control of Annual and Perennial weeds in many situations as recommended.
- GLYPHOSATE 360 has no known residual activity in the soil so plants emerging from underground plant parts or seeds after spraying will not be controlled, therefore repeat treatment may be necessary.
- GLYPHOSATE 360 may not be effective if plants are covered with dust or silt at the time of treatment.
- GLYPHOSATE 360 is available in 1ltr, 5ltr, and 20 ltr, pack.
