**KROVAR I DF**

Active Ingredient: Contains 400g/kg Diuron, 400g/kg Bromacil in the form of a water dispersible granule.

- KROVAR is used for medium to long term control of a wide range of Annual and Perennial Broadleaf weeds and grasses in waste areas and in established Asparagus and Citrus.

- KROVAR is a dry flowable granule formulation.

- KROVAR can be used as a non-selective weed control to control a wide range of weeds for an extended period of time on non-crop land areas such as railway tracks, roadsides, around marker pegs, fence lines, drains, bridge approaches, and storage areas.

- KROVAR I DF only available in 2.5kg pack size.
