

# EnviroSafe

## Mosquito Drops

*EnviroSafe Mosquito Drops is a unique liquid for mosquito control. Completely non-toxic and environmentally friendly, it works by forming a very thin silicone film on the water surface, eradicating immature mosquito stages and disrupting the mosquito life cycle.*

## Description

Mosquito Drops to use in all areas where standing water occurs: Ponds, gutters, blocked drains, troughs, septic tanks and even old tyres.

- For effective control of mosquitos
- Breaks the breeding cycle
- Non-toxic
- Environmentally friendly

## How to Use:

Simply squeeze a few drops on top of the water (0.5ml / 1m<sup>2</sup> of water surface). Repeat application in 4 weeks.
